

YOUSIF ELIA

Windsor, ON | +1 (226) 506-7360 | elia@uwindsor.ca | linkedin.com/in/yousif-elia | github.com/YousifElia

SUMMARY OF QUALIFICATIONS

- Second-year Software Engineering Co-op student (over 18 years of age), holding a valid G2 driver's license.
- Exceptional foundation in relational database design (92% average in Database Management Systems) and backend programming to streamline operations.
- Proven ability to apply root cause analysis and basic problem-solving techniques to real-world technical challenges.
- Highly proficient in Microsoft Office Suite (Excel, Word, PowerPoint), MS Teams, MS Access, and navigating complex file structures.
- Strong interpersonal skills and demonstrated leadership ability to work productively within cross-functional teams.

EDUCATION

Bachelor of Computer Science (Honours) – Software Engineering Co-op Sept 2024 – Apr 2028
University of Windsor Windsor, ON

- **Minor:** Mathematics | **Scholarships:** \$12,000+ total merit-based awards
- **Certifications:** AWS Certified Cloud Practitioner – *In Progress*, Azure Fundamentals – *In Progress*
- **Relevant Courses:** Database Management Systems (92% Grade), Systems Programming, Data Structures

PROJECTS

myAdvice Centralized System | JavaFX, REST APIs/ Hibernate, MariaDB, Docker Jan 2026 – Present

- Engineered robust backend infrastructure using JavaFX and REST APIs, optimizing data retrieval to make system areas more effective and efficient.
- Supported the creation of unique database systems using MariaDB and efficiently tracked user metrics and contractual data.
- Containerized the application using Docker, enabling seamless communication and collaboration across a team.
- Applied root cause analysis to redesign UI/UX workflows, streamlining the process and reducing required user actions by ~80%.

Finance Tracker | HTML, CSS, JavaScript, Git May 2025 – Feb 2026

- Engineered a custom tracking system for financial action items, utilizing problem-solving techniques to improve efficiency in daily activities.
- Tracked project status iteratively, refining the interface based on user feedback to streamline workflows.

Spam Detection Model | Python, Pandas, PySpark, PyTorch Jan 2026

- Utilized computer programming and coding to develop a machine learning model (Python, Pandas) to classify and filter data effectively.

EXPERIENCE & LEADERSHIP

Head of Events Mar 2026 – Present
University of Windsor Computer Science Society (CSS) Windsor, ON

- Direct the execution of large-scale technical events, demonstrating proven leadership experience through school-related activities.
- Utilize exceptional written and verbal communication skills to manage cross-functional teams and track progress on open action items.

Math Tutor Mar 2024 – Sept 2024
Independent / Freelance Windsor, ON

- Translated complex concepts into accessible lessons, maintaining unique databases to track student progress and absenteeism.

TECHNICAL SKILLS

- **Languages:** Python (Pandas, Exposure with SQLAlchemy), SQL (T-SQL, MariaDB), Java, C/C++, VBA, JavaScript, English (Fluent), French
- **Databases & APIs:** Relational Database Design, SQL Server Management, MS Access, Snowflake, Quickbase, REST APIs
- **Tools & Software:** Microsoft Office (Excel, Word, PowerPoint), MS Teams, Docker, Azure, Git, File Structures
