

YOUSIF ELIA

Windsor, ON | +1 (226) 506-7360 | elia@uwindsor.ca | linkedin.com/in/yousif-elia | github.com/YousifElia

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in **Software Engineering** with production experience in **backend architecture**, **full-stack development**, and **REST APIs**. Proven track record of optimizing relational databases and building scalable systems for enterprise analytics.

EDUCATION

Bachelor of Computer Science (Honours) – Software Engineering Co-op Sept 2024 – Apr 2028
University of Windsor Windsor, ON
• **Minor:** Mathematics | **Awards:** \$12,000+ Total Merit-Based Scholarships

WORK EXPERIENCE

Stellantis May 2026 – Sept 2026
Software Engineering Intern – Enterprise Systems Windsor, ON
• **Achieved a 77% query execution speed-up across core database modules** by implementing automated batch processing pipelines and optimizing relational table lookups via TID bucket indexing.
• **Automated the provisioning and onboarding of 40,000+ plant workers** by engineering a scheduled cron pipeline to reliably distribute mission-critical qualification tools required for daily operational compliance.
• **Reduced UI render wait times by 94% across high-traffic analytical views** by engineering client-side DOM caching and deploying a lazy-loading architecture for large-scale DOM trees.
• **Delivered real-time enterprise analytics and automated training tracking** by architecting an interactive KPI dashboard (Quickbase, Chart.js) and a Snowflake-to-Power BI data pipeline utilizing REST APIs.
Freelance Jan 2026 – Present
Full-Stack Software Contractor Windsor, ON
• **Engineered a production full-stack e-commerce and customer loyalty platform** for a commercial client by building a responsive frontend and a **Supabase** backend for user state and purchase tracking, seamlessly integrating the **Square API** for secure payment processing.
• **Expanded digital reach and product discovery across 4 commercial businesses** by designing, developing, and deploying high-performance, mobile-responsive product showcase web applications optimized for SEO and fast load times.

PROJECTS

Tether – Self-Hosted Web Terminal | Go, WebSockets, JavaScript (xterm.js), Cloudflare 2026
• **Architected a real-time web terminal backend in Go**, utilizing WebSockets and cross-platform PTYs to stream shell environments, and developed a multi-client synchronization engine to fan out sessions to authenticated spectators.
• **Engineered secure public access and file management** by integrating Cloudflare Quick Tunnels for zero-config HTTPS exposure and building an atomic file transfer REST API for sandboxed directory operations.

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

Head of Events Mar 2026 – Present
University of Windsor Computer Science Society (CSS) Windsor, ON
• **Executed large-scale technical workshops and university-wide hackathons** by directing cross-functional teams of student organizers and managing critical logistics and technical infrastructure.

TECHNICAL SKILLS

- **Languages:** Python (Pandas, SQLAlchemy), Java, Go, C/C++, SQL (T-SQL), JavaScript, HTML/CSS
- **Frameworks & Libraries:** REST APIs, WebSockets, xterm.js, Chart.js, Supabase, Square API
- **Databases & Systems:** Snowflake, Relational Database Design, Linux / Unix File Systems
- **Cloud, DevOps & Tools:** Docker, Cloudflare, Azure, Git, CI/CD Pipelines, Power BI, Quickbase
